

LUMINEQ TRANSPARENT DISPLAYS OPTICAL DEVICES

Dynamic Information in the line of sight

Glass-like Transparency

Simplified design compared to projective solutions

LUMINEQ®
DISPLAYS BY  **BENEQ**

LUMINEQ transparent displays for optical applications

Scope Reticles

Binoculars & range finders

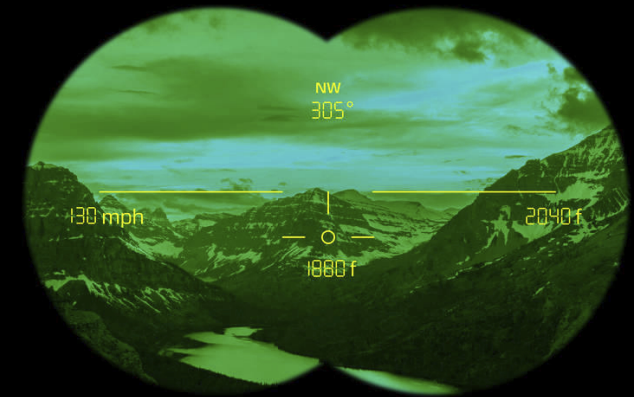

Image Intensified NVG

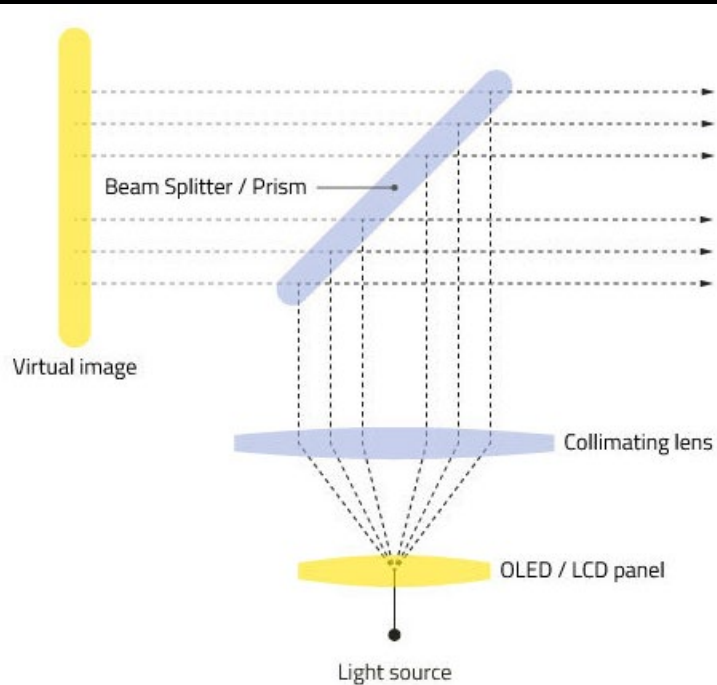

LUMINEQ OPTICAL BENEFITS

-  Bring dynamic information in the line of sight
-  Wide display brightness range
-  Precision graphics and glass-like transparency
-  Achieve optical uniformity
-  Fully customizable
-  Most durable and rugged display on the market
-  Simplified design compared to other solutions

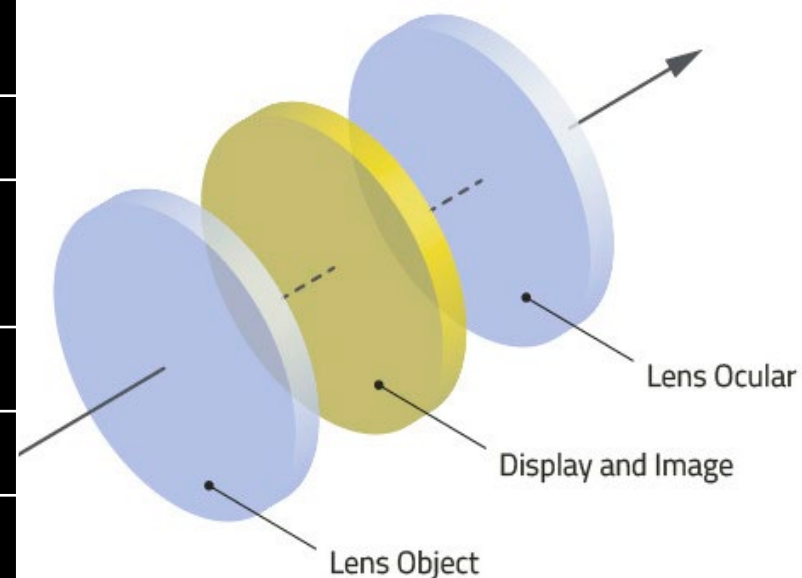

LUMINEQ OPTICAL COMPARISION WITH COMPETING TECHNOLOGIES

OLED or LCD

<u>Reflected</u>	Placement	<u>In line optical path</u>
<70%	Transmission	~90%
Limited dimming	Brightness	Night vision to daylight
Limited	Environmental	Very wide
1-2 years	Lifetime	10+ years
Organic/ Liquid crystal	Technology	Solid state & Inorganic

LUMINEQ Transparent Displays

Simplified design compared to projective solutions
